## **CONSENT TO USE HEIDI AI MEDICAL SCRIBE DURING REFLEXOLOGY ENCOUNTERS**

Dear Client,

The Reflex Zone is committed to providing the best possible care for you. As part of this commitment, we are continually looking for ways to enhance our services.

We would like to inform you about a new technology that we are using called Heidi AI Medical Scribe. This is an artificial intelligence (AI) tool that assists us during client encounters by generating clinical notes based on our conversations. This tool allows us to focus more on you, the client, and less on computer or handwritten documentation.

### **What is Heidi AI Medical Scribe?**

Heidi AI Medical Scribe is a tool that listens to the conversation during a consultation and generates a written summary or "clinical note" based on that conversation. This note is then reviewed and approved by the reflexologist.

### **How will this affect you?**

The AI tool does not interact with you directly. It merely listens to the conversation and creates a summary. This can allow the reflexologist to focus more on the visit and less on taking notes.

### **Data Privacy and Confidentiality**

We want to assure you that your privacy is our utmost priority. The Heidi AI Medical Scribe tool adheres strictly to Health Insurance Portability and Accountability Act (HIPAA) compliance guidelines to ensure your data is secured and protected. Only the reflexologist involved in your care will have access to the physical notes. Additionally, Heidi AI Medical Scribe employs a specialized transcription process that ensures no personal information and no recordings are stored.

### **Your Consent**

Your participation is completely voluntary. If you agree to the use of Heidi AI Medical Scribe during your reflexology sessions, please sign and date the form below. If you have any questions or concerns, please feel free to discuss them with us.

I, *(print name)* \_\_\_\_\_, consent to the use of Heidi AI Medical Scribe during my reflexology encounters/appointments.

Signature: \_\_\_\_\_
